Paleta Sofa

Designed by: Christian Werner

by Leolux

Paleta is your home, your workroom, a place to relax. A broad landscape that offers a warm welcome to friends and family whenever they drop in on you.

Large covered seats form the basis for Paleta, a rich program with many options to suit your needs. The Paleta sofa range offers low or adjustable high back cushions. Paleta is also available without the soft armrests, which gives you the opportunity to create space for an oak table leaf to integrate your side table into your sofa.

In many of his furniture designs, designer Christian Werner chooses trapezoid shapes and round angles. We see them here too. They lend Paleta an appearance so characteristic of the designs from Werner: discreet, soft and friendly.

Dimensions:

96" l x 37" d x 31" h
