Catalogue - Collection

PRIMA

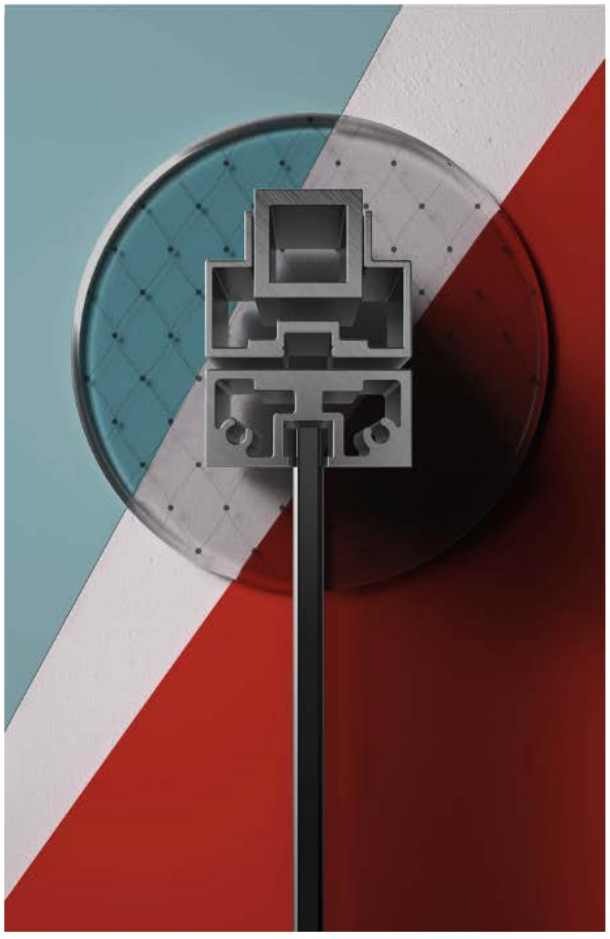
A complete system for configuring spaces without giving up the transparency of glass.

Type

Partition wall, Sliding, Hinged without basic door frame, Flush hinged, Pocket door, Hinged door and frame

Designed By

CRS ALBED



Description

The Prima system is characterised by a minimal, rectangular profile. It is ideal for creating large size movable walls and panels, while maintaining clean lines with single glazing. This complete system satisfies multiple design needs, from a classical hinged or pocket door, through to large sliding panels.

Technical details

- Opening of the hinges 180°
- Telescopic jamb
