

ALL WAYS

Configuration freedom and technical simplicity are the strengths of the All Ways continuous wall system.

Type

Partition wall, Hinged without basic door frame

Designed By

CRS ALBED

All Ways is a continuous system partition wall solution that can be used to define architectural spaces with transparent surfaces, including those that are large in size, without visual barriers. The All Ways system is characterized by a single aluminum profile assembly that can be positioned both horizontally and vertically to allow the greatest freedom of configuration.

Technical details

Opening of the hinges 180°
