

# TECHNICAL SPECIFICATION

## Tout Va Bien

ANTOINE+MANUEL  
2009

### COMPONENTS AND MATERIAL:

MODULES, SIDES AND DOORS are made from a manufactured MDF fibre board available in various thicknesses. The pieces are painted in micro-textured anthracite (RAL 7024). Doors, tops and sides are injected with an integral polyurethane with a chipboard support. The boxes are fixed together with mechanical connections.

LEGS are solid alder and lacquered with a micro-textured paint (the same colour as the doors). Incorporated within the legs are a metallic ring of M8 for attachment to the main body. Legs with code AM 04, are injected with integral polyurethane and incorporate a regulating piece. There are four different models to be chosen from to create a distinct and personal combination. Pieces include a treatment to resist xylophagous (i.e. worm wood).

HINGE spring opening in white zinc plated steel. "PUSH TO OPEN" system for doors.

### FINISHES:

Modules, sides, doors and legs available in two colours: white and grey anthracite (RAL 7024).
