

INTEGRA

The flush hinged door that fits in completely with the architecture, on both sides.

Type

Flush hinged

Designed By

CRS ALBED

Integra is the answer to the design need for a hinged door that is flush on both sides. An uninterrupted, uniform mark that fits in completely with the architecture, a technical opening with its outline defined solely by the light passing through the two spaces it divides. Thanks to its solid aluminum structure, Integra can be finished on both sides to match wall surfaces, facilitating the most sophisticated design needs.

Technical details

Opening of the hinges 180°

Telescopic jamb

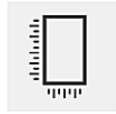

Jambs in aluminum

Magnetic lock

Installation on brick or plasterboard

Custom-made

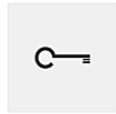

Version to pull and to push

Double glazing

Built-in door closer

Lock may be inserted
