

NEXT

This flush hinged door ensures perfect aesthetic architectural continuity, while maintaining the essential technical simplicity required on site.

Type

Flush hinged

Designed By

CRS ALBED

The Next door is the flush-hinged door solution, with concealed hinges, able to meet design needs, without overlooking the worksite-related technical requirements. Next separates spaces in complete harmony with the environment. The unlimited options for customizing the finish for this flush door solution, with unrivaled technical potential, makes it possible to create architectural surfaces with complete aesthetic continuity. Available with a single door, double hinged door, or with a transom. Also available with a built-in door closer, that is, it is concealed within the door's section without any sign of it externally.
