

/ Absolute freedom, absolute spatiality, absolute creativity.

The Euclidean representations of the Fundamental States of light:
direct, indirect and diffuse.
The possibility to take light anywhere, freely,
without any electrical constraints.
Each product lives its own life, but can be integrated and blended with
others. **Endless** can be used to power **Infinito, Flash, Ohm**.
Technology helps to break down the boundaries.
Intangible, almost invisible materials, hidden, camouflages conductors,
thin cobwebs of filaments that carry and draw the light.

Light running on digital tracks, ultra-light and almost invisible wires,
modular tapes that can be laid limitlessly on
stairs, windows, glass panels.
Circuit that close, accent lighting, ultra-light diodes.
Different, modular and compatible products together with Endless.
All this is part of our Sistemi.

The sizes are expressed in millimeters / inches.
