Absolute freedom, absolute spatiality, absolute creativity.

The Euclidean representations of the Fundamental States of light:
direct, indirect and diffuse.
The possibility to take light anywhere, freely,
without any electrical constraints.
Each product lives its own life, but can be integrated and blended with
others. Endless can be used to power Infinito, Flash, Ohm.
Technology helps to break down the boundaries.
Intangible, almost invisible materials, hidden, camouflages conductors,
thin cobwebs of filaments that carry and draw the light.

Light running on digital tracks, ultra-light and almost invisible wires,
modular tapes that can be laid limitlessly on
stairs, windows, glass panels.
Circuit that close, accent lighting, ultra-light diodes.
Different, modular and compatible products together with Endless.
All this is part of out Sistemi.
